

Highway Department
New John Deere 672GP Motor Grader

The Town's new John Deere 672GP motor grader arrived at the Highway Garage on Thursday July 14th, and the old Caterpillar grader was brought back to Nortrax. My staff and I would like to thank the Board of Selectmen, and especially all of the residents of the Town of Sunapee, for their support with this purchase. We will continue grading the Town's gravel roads, cleaning our drainage ditches, and improving our roadway shoulders with the new grader on July 25th, after roadside mowing operations are complete. Again, we thank you.
